

Structural

Head Structural

OUR STORY

UGent Racing is a team of more than **70** ambitious, motivated and talented **students** who build an **electric** and **autonomous driving racecar**. The team consists both of engineering students and business students. UGent Racing aims to participate in the **Formula-Student Competitions** which are organized during the summer months across different European countries. Moreover, UGent Racing intends to have a **positive impact on society** by contributing to the mobility of tomorrow and forging higher education of the future.

YOUR RESPONSIBILITIES

As head structural, you will be responsible for **leading** the **structural subteam**. This subteam consist of all topics concerning the **sprung mass** of the car, such as the chassis, pedal box, livery and transmission. You will **manage meetings** with all team members to coordinate the design and production of all individual components. As head structural, you will be the **first contact point** for the team members having troubles and questions with their design and for the board members regarding planning and budget control. You will proactively follow the evolution of the individual components and jump in to help where needed.

YOUR PROFILE

- Highly motivated
- Committed
- Open-minded
- Communicative
- Teamleader
- Practical engineering skills
- Proactive

OUR OFFER

- Be part of a young, ambitious team of engineers and business students
- Apply your theoretical knowledge when developing useful applications
- Get the chance to participate in the international Formula Student Competitions
- Get to lead a team while still being close to the design and manufacturing
