

Structural

Livery Designer

OUR STORY

UGent Racing is a team of more than **70** ambitious, motivated and talented **students** who build an **electric** and **autonomous driving racecar**. The team consists both of engineering students and business students. UGent Racing aims to participate in the **Formula-Student Competitions** which are organized during the summer months across different European countries. Moreover, UGent Racing intends to have a **positive impact on society** by contributing to the mobility of tomorrow and forging higher education of the future.

YOUR RESPONSIBILITIES

As the livery designer, you will be a part of the **structural subteam**. Your main task will involve **designing and producing the livery** of the car. This involves all body panels as well as the colours and colours scheme of the car. As sponsors provide us with the financial needs to keep doing what we love, positioning of their logos plays an important role in this part of the livery design. As an expert in graphical design, you will come up with new ways to let the car pop out at the competition and other events. Other than that, you will also be the first contact point whenever other teams would like to consult an expert in graphical design.

YOUR PROFILE

- Highly motivated
- Committed
- Open-minded
- Communicative
- Creative
- Experience with graphical design

OUR OFFER

- Be part of a young, ambitious team of engineers and business students
- Apply your theoretical knowledge when developing useful applications
- Get the chance to participate in the international Formula Student Competitions
- See your own design coming alive on the new UGent Racing car
